Mask Language

Students and staff will be required to wear a face-covering (surgical mask, cloth mask, gaiter, face shield) when physical distancing guidelines, as determined by the Centers for Disease Control (CDC), are not able to be achieved.

Teachers will build in periodic breaks that allow for students to physical distance per CDC guidelines and remove their face coverings.

- Student exemptions to the face coverings guidelines will take place as part of a formal IEP, 504 or IHP team meeting.

All students & staff will be required to wear a face-covering when: riding the bus, entering/exiting the building, arriving to/leaving a classroom, engaging in small group classroom activities, walking in the hallways and other common areas as determined by the building principal, and when asked to do so by an adult.

Daily Symptom Monitoring Language

Daily symptom monitoring will be required of both students and staff. Parents must complete the symptom monitoring form through PowerSchool prior to the designated time each school day. Parents will be required to respond to questions similar to those below as they pertain to their child's health:

- Has your child been fever free (below 100°F) for the past 12 hours?
- Has your child been in contact with a person known or suspected to be infected with COVID-19 in the past 72 hours?
- Has your child had any of the following symptoms: (fever, cough, sore throat, runny nose, shortness of breath, fatigue, chills, muscle aches, loss of taste and smell, difficulty breathing, diarrhea, vomiting, or abdominal pain)?
