Grading and Assessment Summer 2022-2023 prep work

Review the last question on each survey we distributed (regarding the purpose of grading). Before our first meeting in the fall, please post your responses to the following questions/prompts:

- 1) identify 3-5 (or so) key concepts that you see expressed in the responses we have reviewed so far
- 2) pull out 1 or 2 statements from the responses that struck you for some reason (either good or bad)
- 3) look for some other source to provide a **brief** statement about grading that you agree with

Based on this review, **please draft a (no more than) 3 sentence statement of what you believe the purpose of grading should be** to bring to our first meeting in the fall and share with the group. *You do not need to post the draft here—just bring it with you ready to share.*
